

In this exhibit, we trace the development of a multi-currency arrangement. Our individual has purchased three Classic Deferred Annuities; one each denominated in Swiss francs, Euros and British pounds. The annuities began paying a life income in 1998. This exhibit then traces how these three annuities developed when converted into US dollars.

The Swiss Multi-Currency Annuity 1998-2008

- EURO € 17,077
- GBP £ 12,121
- CHF 28,998
- TOTAL DOLLAR VALUE OF MULTI-CURRENCY ANNUITY PAYMENTS
